

## **Box Parish Council Working Groups – 2025-2026**

Participating in a Working Group is a great way for parishioners to contribute to our work in a less formal way. If you would like to help in any of the following groups, or would simply like to know more, please email the Clerk.

Our currently active Working Groups include (in no particular order!)

**Tennis Working Group** - working on raising funds for the resurfacing of the courts and generally promoting tennis in the parish.

**Buildings Working Group** - looking into the feasibility of redeveloping or selling the Parish Council office to fund redevelopment of the Pavilion, to incorporate a Parish Office.

**Communications Working Group** - looking at opportunities to improve communications from the Council and the promotion of Box Parish to the wider world (such as via the Great West Way).

**Neighbourhood Plan Working Group** - creating the Plan documentation, in preparation for putting the Plan to the public vote in 2025/2026.

**Playground Development Group** – looking on how best to bring the playground equipment up to date.

**Flood Wardens and Community Resilience Working Group** – developing plans to build community resilience against potential risks.

**Climate Action Working Group** – looking at how to reduce the environmental impact of Council activities and promoting Climate Action throughout the Parish.

**Highways Working Group** – looking into opportunities for improving road safety throughout the Parish
